CALL FOR PAPER
ICMV 2020
The 13th International Conference on Machine Vision

ICMV is visited by School of Electronics, Xi Chuan University, assisted by Univ. of Stuttgart, National Univ., Univ. of Barcelona. Available for Information Transferring Problems, The Supreme Univ. of Rome. ICMV is with rapid publication and fast speed of indexing.

Accepted ICMV 2020 papers will be published on SPIE, to be included in SPIE Digital Library, and indexed by EI Compendex, Inspec, etc.

TOPICS INCLUDED BUT NOT LIMITED
- Machine Vision, Image Processing, and Pattern Analysis
- Imaging Systems
- Color and Texture Analysis
- Segmentation
- Motion and Tracking
- Stereo Vision
- Biometrics Recognition
- Image-Based Modeling
- Calibraion and Georegistration
- Determination and Performance Modeling
- Self-Commissioning for Machine Vision
- Physics-Based Modeling
- Artificial Intelligence for Machine Vision
- Video Analysis
- Face and Gesture Recognition
- Action and Event Recognition
- Multimodal (Eye-Motion) Metrics
- Computer Vision and Image Analysis
- Action Video
- Early Vision
- Feature Extraction
- Pattern Recognition and Basic Techniques
- Statistical Pattern Recognition
- Structural and Syntactic Pattern Recognition
- Ransac Networks
- Machine Learning and Data Mining
- Visual Navigation
